## PEANUT I

The compact connecting device PEANUT I with FS90 ALU karabiner convinces with its self-retracting arm, which does not restrict the working radius and ensures that the fall height is extremely low. The all-rounder carabiner with an opening width of 60 mm is suitable for almost all structures and can be opened easily. The fastener is edge-suitable and thus also serves for horizontal securing. PEANUT I contains the One-4-All damper and is therefore suitable for a very wide range of user weights from 50 to 135 kilograms. The 1.8 m long arm makes PEANUT I ideal for securing in aerial work platforms. Due to the spring-loaded webbing retraction, the person remains safely on the platform even in case of a catapult effect. A red indicator shows when the strap fall arrester has been triggered and provides additional safety. The PEANUT I also serves to secure the stand.

### FEATURES

Application areas:	Facades cleaning, Emergency, Mobile Work Platforms
Colour:	Black, Grey, polyethylene_terephthalate
Edge approved:	Yes
Maximum user weight vertical:	135.00 kg
Maximum lifetime:	10 years
Maximum number of persons:	1
Maximum temperature:	45 °C
Minimum user weight:	5.00 kg
Minimum temperature:	-35 °C

### MATERIAL

Material:	Polyester, Polyamide, Steel, Aluminium
