

A bonus for you and your hands!

Skin protection, skin cleansing and skin care for people who get dirty while working with their hands: rath's is the professional 'plus' at the workplace. For use in many types of industries and fields based on feedback provided by experienced, skilled workers and professionals.

- + „Made in Germany“
- + practical and easy-to-use
- + high-quality and effective

SKIN PROTECTION

rath's skin protection products can largely prevent contact with dirt and skin irritants and can reduce the risk of skin damage when applied consistently as indicated. rath's skin protection products should be carefully selected to provide enhanced protection from the types of skin irritants that are present in each work area. **rath's – your personal body-guard.**

Since the skin on one's hands withstand a lot during one's regular activities, adequate skin protection, appropriate skin cleansing, and gentle skin care products are all important. Nothing should be left to chance! All products manufactured by rath's are carefully tested for skin compatibility by Dermatest in Münster **rath's - and the skin stays healthy.**

SKIN CLEANSING

rath's skin cleansing products are meant to provide a gentle approach to cleanliness. From 'soft' to 'special,' rath's has high-quality and effective cleansers for every type of soiled hands. **rath's – as gentle as possible and as strong as necessary.**

SKIN CARE

rath's skin care products prevent rough, dried out, or cracked hands because they ensure that the skin's natural protective layer is preserved. **rath's – feels good.**
