

406-100 Impact ring spanner (DIN 7444) with 100 mm jaw opening

DESCRIPTION

The impact rings (DIN 7444) of series 406 are used in applications such as commercial vehicles, pipe industry, tank cleaning, petrochemical industry, steel and mining, etc. They do not slip off as easily as open-end wrenches and allow for a greater force transmission; however, an open access to the screw is required. The series 406 stands out for its variety of designs. Numerous sizes enable use with different screw sizes.

APPLICATION AREA

For the application fields NFZ, pipe industry, tank cleaning, petrochemical industry, steel and mining industry etc

BENEFIT

- Up to a length of 480 mm made of forged carbon steel
- Until key width 120
- Various designs allow for use with different square and hexagonal sizes.

OPERATION

- Attach the jaw wrench and operate by turning
