

49-T-1 Screw extractor "Super Traction", for Ø 4 mm - 5 mm

DESCRIPTION

The screw extractor "Super Traction" is used to extract broken bolts and screws with right-hand threads. Thus, the screw extractor is an indispensable tool that neither hobbyist screwdrivers nor professional craftsmen can do without.

APPLICATION AREA

For removing broken bolts and screws with right-hand threads.

BENEFIT

- Narrow grooves ensure better traction and thus a comfortable operation.
- Optimized thread lengths ensure a shallow drilling depth.

OPERATION

- Center with a kernel screw
- Drill a center hole in the screw
- Screw the screw extractor counterclockwise into the drilled hole
- Operate the square of the screw extractor with a wrench or spanner until the screw is removed

MASTER DATA

GTIN [EAN]	4021176758461
Country of origin	DE
Case material	Tool steel
Series	49-T
Net weight [kg]	0,1 kg
Package contents	5 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
