

49-T-A Screw Extractor Set "Super Traction", for Ø 4 to 20

DETAIL IMAGE

DESCRIPTION

The screw extractor set "Super Traction" is used to extract broken bolts and screws with right-handed threads. The screw extractors are an indispensable tool that neither DIY enthusiasts nor professional craftsmen can do without. The set includes screw extractors for thread diameters from 4 to 20 mm.

APPLICATION AREA

For removing broken bolts and screws with right-hand threads.

BENEFIT

- Application-oriented assembly for universal use
- Through the shared storage, the completeness of the set can be easily overseen.
- Narrow grooves ensure better traction and thus a comfortable working method.
- Optimized thread lengths ensure a shallow drilling depth.

OPERATION

- Center with a kernel screw
- Drill a center hole in the screw
- Screw the screw extractor counterclockwise into the drilled hole
- Operate the square of the screw extractor with a wrench or spanner until the screw is removed

MASTER DATA

GTIN [EAN]	4021176758959
Country of origin	DE
Case material	Tool steel
Series	49-T-A
Net weight [kg]	0,11 kg
Package contents	1 set
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
