

# 49-05 Screw extractor, wide grooved, for Ø 14 mm - 18 mm

## DESCRIPTION

The screw extractors of series 49-0 with broad ribbed shape are used for removing broken bolts and screws with right-hand threads. Thus, the screw extractor is an indispensable tool that neither hobbyist nor professional tradesman can do without.

## APPLICATION AREA

For removing broken bolts and screws with right-hand threads.

## BENEFIT

- Wide grooves are particularly suitable for soft materials, such as brass and aluminum.
- Optimized thread lengths ensure a shallow drilling depth.

## OPERATION

- Center with a kernel screw
- Drill a center hole in the screw
- Screw the screw extractor counterclockwise into the drilled hole
- Operate the square of the screw extractor with a wrench or spanner until the screw is removed

## MASTER DATA

GTIN [EAN]	4021176490989
Country of origin	DE
Case material	Tool steel
Series	49-0
Net weight [kg]	0,4 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
