

# 17-K 4-piece separator set with quick-action pressure spindle

APPLICATION IMAGE

DETAIL IMAGE

## DESCRIPTION

The 17-K 8,883-piece separator set is used for pulling ball bearings, roller bearings, inner rings, and other flat-lying parts in crafts, industry, and workshops when there is not enough space for puller jaws. The separation-extraction process is capable of initially separating those parts gently before they can be pulled off from the outside. Compared to series 15, series 17 is particularly handy because the separation jaws are quickly and concentrically clamped by a pressure spindle. This 4-piece set includes one separator and puller device as well as a pair of extensions, ensuring the full range of applications is guaranteed.

## APPLICATION AREA

To pull ball bearings, roller bearings, inner rings, and other flush-mounted parts in craft, industry, and workshop.

## BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- A simple and safe handling is made possible by the quick clamping pressure spindle.
- The sharp edges allow for extraction where other types of extraction are not applicable.
- By screwing the separator and puller device together, the highest stability during pulling is ensured.
- If the separator jaws are screwed into the tensioning device in the opposite direction, the contact area is increased and removed in a gentler manner.

## OPERATION

- Press the sharp edges of the separator behind the part
- Tighten the separating jaws by operating the pressure spindle and ensure that the separating blades are seated against the stop under the part to be removed
- Screw the pull pin of the puller into the threaded holes of the separator until it stops
- Hold the separator securely and carefully remove the relevant part by tightening the locking nut

## MASTER DATA

GTIN [EAN]	4021176008856
Country of origin	DE
Case material	Tool steel
Series	K-17
Net weight [kg]	3,11 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)

## SPARE PARTS

- 017140\_Side bolt with nut
- 018175\_side screw
- 17-0\_Separator with quick clamping pressure spindle
- 17-0-T\_crossbar
- 18-0\_extractor device
- 18-0-T\_Crossbar
- 19-1-P\_2 Extensions for pullers
