

18-2-AS Thread adapter set for series 18

APPLICATION IMAGE

DESCRIPTION

The thread adapter set of model series 18-AS is used together with the pullers of model series 18 for removing and pulling components with threads, such as dowel pins, keyways or bolts, in crafts, industry and workshops. The separation-pulling process is capable of gently separating those parts first before they can be externally pulled off.

APPLICATION AREA

Together with the pullers of series 18 for pulling off and extracting components with threads, e.g. dowel pins, feather keys or bolts

BENEFIT

- The thread adapters enable the careful and safe removal of parts with threaded holes.
- Universal assembly for optimal practical application
- Depending on the sentence, the thread adapters are available in different standard sizes, allowing for an appropriate approach to the task.

MASTER DATA

GTIN [EAN]	4021176337123
Country of origin	DE
Case material	Tool steel
Series	18-AS
Net weight [kg]	0,98 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)

SUITABLE FOR

- 18-2_extracting device

SPARE PARTS

- GE10-1415 spindle insert
- GE12-1415_spindle insert
- GE14-1415_Spindle insert
- GE16-1415 spindle insert
- GE18-1415 spindle insert
- GE8-1415_spindle insert
- VM1415-1415_connecting nut
