

71 Bearing installation tool set made of steel, black version, for ball bearings with an inner diameter of 5-10 mm, outer diameter of 26 - 110 mm

APPLICATION IMAGE

DETAIL IMAGE

DESCRIPTION

The 39-piece bearing installation tool set made of heavy-duty steel from the series 71 is used for the installation of bearings using a hydraulic press or hammer in crafts, industry, and workshops. The set includes 33 impact rings and 5 impact tubes made of extra strong steel, as well as 1 SELECTHOR with two different impact inserts (PU/CA). The tool set allows for a damage-free installation of bearings without damaging axles, bearing housings, or seal rings.

APPLICATION AREA

For installation of bearings by means of hydraulic press or hammer

BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- The combination of the impact ring and impact sleeve required for the installation of the ball bearing can be found in the table on the lid of the suitcase.
- Combining the impact ring and impact tube ensures that the installation forces are never transmitted through the rolling bodies of the bearing, thus protecting it.
- The included SELECTHOR hammer can be used flexibly by swapping the provided striking heads.
- Usable for mounting into the housing, onto the shaft, or both at the same time

OPERATION

- Assemble bearing with the soft side of the SELECTHOR hammer pre-mounted
- Place impact ring and matching impact tube onto bearing
- Strike the tube with the hard side of the SELECTHOR hammer to firmly mount the bearing

MASTER DATA

GTIN [EAN]	4021176314841
Country of origin	DE
Case material	Tool steel
Series	71
Net weight [kg]	17,75 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
