

# 223-G Key and dowel pin puller set for parts with internal thread M8/M10/M12/M14/M16/M18/M20/M22/M24

## DETAIL IMAGE

### DESCRIPTION

The 14-piece puller and extractor set is used for extracting bushings as well as components with threads (dowel pins, flat keys, etc.) in craft, industry, and workshops. In addition to a sliding hammer device, various thread inserts are included to extract parts in different sizes.

### APPLICATION AREA

For removing bushings as well as components with threads (dowel pins, feather keys, bolts, etc.) in crafts, industry, and workshops.

### BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- With the help of the dimensions laser-engraved on the thread adapters, the thread can be uniquely identified.

### MASTER DATA

GTIN [EAN]	4021176984181
Country of origin	DE
Case material	Tool steel
Series	223-K
Net weight [kg]	5,85 kg
Package contents	1 piece
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)

### SPARE PARTS

- 22-0-17 Sliding Hammer Device with 1.7 kg Impact Weight
- GA12-1815\_Reduzierungsrück
- GE10-1815\_spindle insert
- GE12-1815\_spindle insert
- GE14-1815\_spindle insert
