

# 1-V-150-P Pulling jaws extensions (Pair, 150 mm extension)

## DESCRIPTION

The pair of jaws extensions is used to increase the reach. This allows components that are particularly deep on a shaft to be grasped. The extensions can be combined in any way and thus adapted to the required reach.

## APPLICATION AREA

To expand the reach.

## BENEFIT

- Unlimited extension of reach
- Cross-referencing allows for increased power uptake and relieves the screw.
- Compatible with various hook types

## MASTER DATA

GTIN [EAN]	4021176985089
Country of origin	DE
Case material	Tool steel
Series	V-P
Net weight [kg]	0,805 kg
Package contents	1 few
Packaging Act	PP 05
