

# 2-V-150-S Pulling jaws extensions (set, 150 mm extension)

## DESCRIPTION

The set of Pulling jaws extensions is used to extend the reach. This allows for the gripping of components that are seated particularly deep on a shaft. The extensions can be combined with each other as desired and thus adapted to the required reach.

## APPLICATION AREA

To extend the reach.

## BENEFIT

- Unlimited Extension of Reach
- Cross reception enables increased force intake and relieves the screw.
- Compatible with various hook types
