

K-142/6 Universal windshield wiper puller set 8 pieces in K-i-BOXX for all cars, especially all VW, Audi, Seat, Skoda.

DETAIL IMAGE

DESCRIPTION

The 8-piece universal wiper puller set K-142/6 is used to remove firmly seated, rusted, and deeply mounted wiper arms on all vehicle models. Included are the wiper pullers from series 142, as well as a wiper arm puller from series 128-F-SW and a 2-jaw universal puller with self-centering puller jaws from series 43. Due to this combination, the set is capable of gently and safely pulling even in tricky extraction situations without the need to disassemble additional parts.

APPLICATION AREA

To remove firmly seated, rusted, and deeply embedded wiper arms on all vehicle models.

BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- Suitable for windshields and rear windows where the wiper water hose goes through the hub.
- The selection of special threads allows for particularly high extraction forces.
- Particularly gentle removal thanks to a special pressure piece on the spindle
- Anti-slip safety (spindle neck) at the spindle head for safe work with wrench.
- Spindle extension for the protection of the thread

OPERATION

- Pull the jaws apart and slide them under the component
- Attach the puller to the wiper arm
- Operate the spindle to loosen and pull off the wiper arm

MASTER DATA

GTIN [EAN]	4021176039249
Country of origin	DE
Case material	Tool steel
Series	K-142
Net weight [kg]	2,61 kg
Package contents	1 piece
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
