

626300 Mechanical pressure spindle Ø 26,441 mm for spindle thread G 3/4" / 14, 300 mm length, 5,4 mm thread

DESCRIPTION

The mechanical pressure spindle is the heart of every KUKKO puller. It achieves a maximum pulling force of 10 t. The manual operation of the spindle allows for a sensitive control of the extraction process. The fine thread also ensures perfect power transmission. A reversible spindle tip enables a secure placement of the spindle on both smooth surfaces and centrings.

APPLICATION AREA

For a sensitive control of the removal process and perfect power transmission.

BENEFIT

- Optimal gliding properties in the thread groove thanks to special coating
- Ideal adaptation of the spindle to the shaft through two-sided spindle tip
- Stored, freely rotating centering tip protects the shaft from damage when applying the pulling force.
- Extremely durable due to rolled thread
- Including KUKKO special grease

MASTER DATA

GTIN [EAN]	4021176765360
Country of origin	DE
Case material	Tool steel
Series	6
Net weight [kg]	1,32 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
