

# Stainless steel Multi-use buckles G304

FOR STRAPPING BANDS: STEEL GRADE: AISI 304, 201

Stainless steel Multi-use buckles are reusable components used for clamping tensioned stainless steel mounting straps using a special hex screw. Multi-use buckles have a wide range of applications in the energy, telecommunications, road construction, aviation, defense, food, and coal mining industries.

They are made of corrosion-resistant AISI 304 stainless steel, resistant to UV radiation and harsh weather conditions. They are also resistant to mechanical factors such as vibrations and heavy loads.

The high quality and precise construction of the buckles allow for multiple installations and removals of the strap without damage using the Allen key, which is included in the set. They work great in urban and industrial environments with moderate pollution. Indoor and outdoor locations exposed to chlorides. The wide variety of buckle sizes allows for perfect fitting to all types and sizes of available straps.

## PRODUCT CHARACTERISTICS:

HIGH STRENGTH AND DURABILITY

RESISTANT TO HIGH AND LOW TEMPERATURES

RESISTANT TO RUPTURE

RESISTANT TO HIGH LOADS

RESISTANT TO VIBRATIONS

MADE OF STAINLESS STEEL

UV-RESISTANT

CORROSION-RESISTANT

## TECHNICAL DATA

Width	Type	Steel grade	Quantity per pack
19 mm (3/4")	Multi-use	AISI 304	100 pcs.
16 mm (5/8")	Multi-use	AISI 304	100 pcs.
12,7 mm (1/2")	Multi-use	AISI 304	50 pcs.
9,5 mm (3/8")	Multi-use	AISI 304	50 pcs.
6,4 mm (1/4")	Multi-use	AISI 304	50 pcs.
