

**ONE.
ALWAYS.
EVERYWHERE.**
THE WIHA TOOL BACKPACK.

wiha 
Tools that work for you

NEW
FROM WIHA

wiha 

WHEN YOU HAVE YOUR HANDS FULL OF WORK, YOU NEED TWO FREE HANDS.

Freedom for the hands. A backpack is the ideal solution for remaining mobile and ready to work everywhere. In close collaboration with the users who use the backpack in their daily work, Wiha has analysed their needs in detail and incorporated them into the development process. The result is a product, which is a prime example of applied ergonomics, functionality and long service life – a product by Wiha.

**ROBUST ON THE OUTSIDE,
PERFECTLY ORGANISED ON
THE INSIDE.**

Separate laptop/office compartment: Large back compartment, this way, tools can be stored separately from the laptop and documents.

Plenty of additional storage: The interior of the backpack offers much room for additional material.

Stable, waterproof base tray: The hardwearing base tray keeps the tools dry.

Well organised, easy to remove: All tools can be easily removed and returned.

77 storage and 30 flexible attachment possibilities: Free choice of individual equipment arrangement.

Tilt-resistant stand: The base tray makes sure that that backpack has a firm stand when open.

Robust, non-slip handle: The large non-slip and exceptionally comfortable handle is made of hard and soft components.

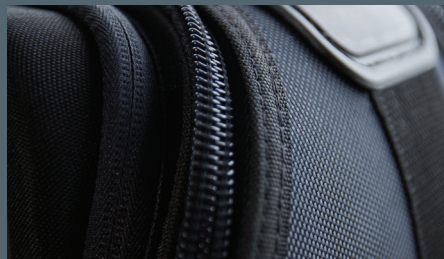

Durable, robust YKK-zipper: Smooth running, robust and lockable.

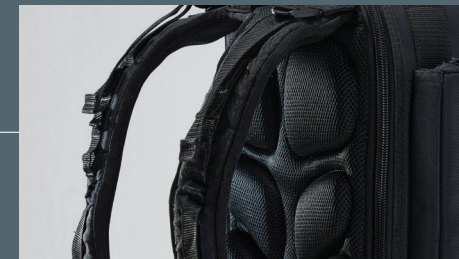

Ergonomic breathable carrying elements: Highest carrying comfort through excellently ventilated back padding.

Protected side compartment: Secure protection for sensitive tools such as measuring tools from Wiha.*

Hard-wearing material 1680D: Robust, splash water resistant surface material made of PU fabric.

Convenient to carry by persons of any height: Easily adjustable shoulder and chest straps ensure good weight distribution.

* The picture shows accessories that are not included in the scope of delivery.

Protected storage: Convenient for glasses, mobile phones or valuable tools like the speedE.*

MOLLE System*: For the optional expansion and customisation of the Wiha tool backpack with a few quick steps.

Quick access with 1/3 opening: For quick placement and removal of tools only the top third needs to be opened.

* The picture shows accessories that are not included in the scope of delivery.

MOLLE System*: You can search online for the term "MOLLE System" to find many options for expanding and customising your backpack.

FLEXIBLE IN EVERY DETAIL.

THE NEW FREEDOM: HAVING EVERYTHING ALONG EVERYWHERE.

On land, on water and in the air. Some work locations have very unique special requirements. With the Wiha backpack you are prepared for all eventualities. Extremely robust, extremely ergonomic and, most importantly, extremely flexible.

A backpack to be proud of. The Wiha tool backpack – the ideal companion for every job.

You can conveniently take the bicycle, bus or train to the construction site – without worrying about parking.

With two free hands, you can securely climb any ladder.

Ideally suited for jobs in buildings without lifts, e.g. in old buildings.

Leaves the hands free at all times, to transport additional material, for example.

Convenient for working on roofs, such as solar heating system construction.

With the protected laptop compartment, you have your entire office along with you everywhere.

When working on difficult-to-access spots such as lift shafts.

Installation and maintenance of air conditioning on the roof.

THE SECURE FEELING OF HAVING EVERYTHING ALONG FOR ELECTRIC WORK.

The Wiha tool backpack electric.

Equipped with the essential tools for electricians. All tools with the VDE marking have been tested at 10,000 V AC and approved for 1,000 V AC and 1,500 V DC.
